## Prague Process

### Key Data

Lead State: Poland  
Support Team: ICMPD  
Established: 2009  
Staff: 5  
Partner States: 50

The Prague Process is a political initiative that developed out of the Building Migration Partnerships (BMP) Ministerial Conference, which took place in Prague on 28 April 2009. At

this conference, the participating states adopted a *Joint Declaration* on the principles and initiatives for promoting close migration partnerships. Moreover, the participating states agreed to do so through a comprehensive, balanced and pragmatic approach that respects the human rights of migrants and their family members, as well as of refugees. The text of the BMP *Joint Declaration* was prepared by all BMP participating states with the active participation of several EU bodies and international organisations. Specifically, the *Joint Declaration* established the following five areas as a basis for cooperation:

- Preventing and fighting illegal migration
- Integration of legally residing migrants
- Readmission, voluntary return and sustainable reintegration
- Migration, mobility and development
- Legal migration with a special emphasis on labour migration

The main aim of the Prague Process has been to implement in the Eastern and South-Eastern Regions the objectives of the Global Approach to

Migration and Mobility (GAMM), which constitutes the overarching framework for the external dimension of EU migration policy. The Process is led by Poland, while the Core Group, comprised of 15 states, the European Commission and ICMPD, supports the Senior Officials' Meeting. The Senior Officials comprise the decisive body of the Prague Process.

PRAGUE PROCESS  
ПРАЖСКИЙ ПРОЦЕСС

The Prague Process Action Plan 2012–2016 outlines 22 concrete activities in 6 thematic areas to be implemented during that period. The preparatory meetings for the Action Plan resulted in extending the thematic scope of the process's agenda to the area of asylum and vulnerable groups, which evolved into an independent area of further cooperation. From 2012–2016, Poland and six other leading states are implementing the EU-funded initiative "Support for the Implementation of the Prague Process and its Action Plan", also known as the "Prague Process Targeted Initiative (PP TI)". This initiative is led by Poland together with Czech Republic, Germany, Hungary, Romania, Slovakia and Sweden, who also take the lead in the initiative's pilot projects. In addition to the PP TI project, Poland also supports the Prague Process financially on an ad-hoc basis and organises/hosts Core Group meetings in 2012 and 2013. ICMPD serves as the Prague Process Secretariat and the Support Team of the Prague Process Targeted Initiative.

### Projects

The “Building Migration Partnerships (BMP)” project (2009–2011) carried out activities to strengthen relations between the participating states. These activities included missions at senior and expert levels, as well as the elaboration of migration profiles that have provided an overview of the migration situation in the states concerned and further developed migration partnerships. All extended migration profiles were transferred to the online interactive map – the PP i-Map – at [www.imap-migration.org](http://www.imap-migration.org).

“The Prague Process: Continuation of the Building Migration Partnerships Dialogue (BMP Transitional)” project (July 2011–July 2012) updated the BMP knowledge base, finalised the text of the Prague Process Action Plan for the implementation of the BMP Joint Declaration from 2012–2016 and prepared the document for its endorsement at the Second Prague Process Ministerial Conference in Poznań, Poland on 3–4 November 2011.

The current project, the “Prague Process Targeted Initiative (PP TI)”, aims to enhance cooperation in the area of migration and asylum between the participating states through the implementation of the process and its Action Plan. The website [www.pragueprocess.eu](http://www.pragueprocess.eu) serves as the main source of information on the Prague Process and its Targeted Initiative. In addition to the PP TI, there are several other projects, such as ERIS and SIPPAP, implemented under the umbrella of the Prague Process. These projects are based on the Action Plan but implemented outside of the PP TI and follow the Prague Process’s principles of equality and mutual interests, as well as its voluntary nature.
